VASTO ASSORTIMENTO
DI **ARTICOLI DA PESCA**
PER **RIVENDITORI**

La nostra azienda ha una consolidata esperienza nel settore della produzione e l'assemblaggio di articoli tecnici e metallici, settore in cui opera da oltre 20 anni. Tale preparazione ci ha consentito di applicare le nostre conoscenze nel mondo della nostra passione "la pesca sportiva". La nostra professionalità ed esperienza è messa al vostro servizio per cercare di soddisfare ogni vostra esigenza. La MA.GIA. PESCA srl realizza e vende le seguenti tipologie di prodotti: bombarde, galleggianti, mascotte, piombi, vetrini, collanti e accessori... Siamo inoltre specializzati nei seguenti servizi: personalizzare a terzi qualsiasi prodotto a seconda delle esigenze richieste.

Our company has over 20 years of consolidated experience in the field of the production and assemblage of plastic, metallic and technical articles. Such preparation has allowed us to apply our knowledge to the world of our passion "Sport Fishing". Our professionalism and experience are put to your service in order to satisfy your every requirement. The MA.GIA. PESCA srl manufactures and sells the following range of product: Floats, Lead Sinkers, Display Cases, Adhesives and various other fishing tackle accessories. Moreover we are specialized in the following services: personalize to third parties any product according to the demanded requirements.

Unsere Firma hat langjährige Erfahrung in der Herstellung und Montage von technischen Kunststoffen und Metall- Industrie, wo seit über 20 Jahren. Diese Vorbereitung konnten wir unser Wissen in die Welt unserer Leidenschaft "Sportfischerei" zutreffen. Unsere Professionalität und Erfahrung zur Verfügung versuchen, alle Ihre Bedürfnisse zu erfüllen. Die MA.GIA. Pesca srl produziert und vertreibt folgende Produkte: Sbirolino, Pose, Mascot, Ghost, Folien, Klebstoffe und Zubehör Forelle... Wir spezialisieren uns auf folgende Dienstleistungen: Anpassen an Dritte Produkt in Übereinstimmung mit den Anforderungen.

Depuis plus de vingt ans, notre société possède une expérience consolidée dans le secteur de la production et de l'assemblage d'articles techniques aussi bien en matière plastique que métallique. Notre formation nous a permis ainsi de nous dédier au demaine qui nous passionne tant: la pêche sportive. Notre compétence est mise à votre service pour satisfaire tous vos besoins. Ma.gia. Pesca srl réalise et vend le type de produit suivants: bombettes, flottants, mascotte, plombes, diapositives, adhésifs et différent accessoires. Nous sommes en outre spécialisés dans la personnalisation de produits selon la demande du client.

Passion

and

quality

 Da diversi anni la nostra azienda si occupa dello stampaggio e assemblaggio di bombarde: l'esperienza ci ha portato a migliorare sempre di più la qualità e l'efficienza in campo pratico. In questo modo abbiamo potuto ampliare la nostra gamma di bombarde andando incontro alle esigenze dei nostri clienti.

 For several years our company has dedicated itself to the molding and assembling of bombarde: Experience has led us to increasingly improve the quality and efficiency in the field of practice. In this way we have been able to expand our range of bombarde in keeping with the needs of our customers.

Sbirulino Jolly/Samba

 Lo SBIRULINO JOLLY permette di cambiare il peso e l'affondabilità a seconda dell'esigenza di pesca. Gli spazi occupati dai pesi in ottone possono anche essere occupati da pastiglie di pastura effervescenti che sciogliendosi gradualmente attirano a se la preda.

 The SBIRULINO JOLLY allows the user to change the weight and sink-ability depending on fishing requirements. Spaces occupied by leads can also be occupied by effervescent tablet that dissolve gradually attracting to the prey.

SBIRULINO JOLLY

Sbirulino Jolly

Code	 gr.
110006	6,0 + (6-10,5 gr.)
110010	10,0 + (10-22 gr.)
110015	15,0 + (15-35 gr.)
110020	20,0 + (20-40 gr.)

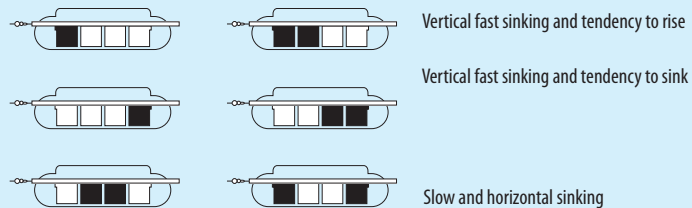

With the Sbirulino Jolly, removing the tube, the cover is separated from the body and you can:

- 1) Replace it with another one, of different size
- 2) Change the weight by adding or removing weights (leads)

Putting the weights inside spaces of Sbirulino, you can change the weight and the floatability.

- 3) Moving the weights inside Sbirulino you can change the kind of navigation and sinking:

 Il VETRINO è un articolo indispensabile per i pescatori, dai dilettanti ai professionisti. Il vetro oltre ad essere invisibile in acqua, permette infatti di raggiungere distanze maggiori di lancio con zavorre della stessa grammatura, poichè in acqua perde il 30% del suo peso specifico. In questo modo è possibile fare una pesca più dolce.

 The VETRINO is an indispensable element for fishermen, from amateurs to the professional. The glass allows to reach the same throw distance as a lead of the same weight, but in water it reduces its specific weight. This allows you to retrieve the line slowly.

Catenelle sonar

 La montatura realizzata con i sonar punta a stuzzicare il pesce e a stimolarlo grazie al recupero lento che mostra un andamento dell'esca molto più naturale. La sua struttura è formata da microslim che noi proponiamo sia in piombo che in vetro, delle piccole molle in acciaio inox, terminando con una girella tripla.

 The fishing line made with the sonar aims to tease the fish and stimulate it thanks to the slow recovery that makes for a more natural bait performance. Its structure is made of microslim, that we provide both in lead and glass, of small stainless steel springs, ending with a triple swivel.

PIGMENTI FLUO

Fluo pigments

Pigmenti fotoluminescenti e fosforescenti che si illuminano al buio dopo l'esposizione ad una fonte di luce (solare, elettrica, UV). Hanno tutti una base di colore ad esclusione del bianco, impermeabili, mantengono la luminosità per 10 min. NOTOSSICO

Per un buon risultato provate a mescolare i pigmenti nella nostra BI-TECH (pag.17) Scegli i tuoi colori preferiti. Confezione da 5g personalizzabile con il tuo logo

Photoluminescent and phosphorescent pigments shine in the dark after being exposed to light (sunlight, electric light or UV light). The pigments are colored based except for white, are waterproof, and will shine for about ten minutes. No charging limit

For a good result try to mix the pigmenti in our BI-TECH (page 17)

Choose your favorite colors. Package of 5 gr customizable with your logo.

Choose your favorite colors and make your own rod by using the instructions on the back of the case.

Fishing Fluo

 Vernice luminescente fosforescente che si illumina al buio, rendendo visibili piccoli dettagli. Utilizzare la vernice fluo su una base bianca o applicare una mano di "primer bianco" sull'oggetto. Per ottenere il risultato finale migliore, applicare due passate di vernice fluo del colore scelto e infine applicare un rivestimento di "final coverage" per proteggere il colore.

 Phosphorescent luminescent paint that lights up in the dark, making small details visible. Use the fishing fluo on a white base or apply a coat of "white primer" on the object concerned, to make the final result better, apply two fluo fishing passes of the preferred color and finally apply a "final coverage" coat for protect the color.
